

# Designer's Choice H type Coverplate EJs

**Designer H:** Revolutionary design combines slim visual width, low profile and hidden fixings. This heavy duty floor coverplate system is designed for use in polished concrete, roll-coat epoxy, tiles, vinyl and other floor finishes. Low profile and slender width allows for minimal substrate rebating. Leaves no visual grout line when applied to polish or trowel-finished concrete. Suitable for bulky-goods retail (ie Masters, Ikea) with rebating constraints. Stadiums, transit-centres, car parks and other buildings with suspended-slab concrete.

Product	A: Coverplate		B: Gap				C: Exposed Width		
	Width	Thick	Min.	Mid.	Max.	Mvmt.	Min.	Mid.	Max.
